The Western Vermont Railroad is now completed, and in excellent working condition throughout. It is fully equipped with all the requisite rolling stock, and its traffic is adequate to pay a good interest on its cost. This traffic is increa-ing very fast, from the natural growth of the business of a thriving and improving district—from its position, which must ever command the great travel between New York and Mentreal—and particularly from the rapid development of the marble quarries al-ing the line of the road. This section of country produces the finest marble in America. It is of various qualities, adapted to all the purposes for which marble is used. Quarries are opening out now everywhere near the line of this road, from Rutland and Mar chester, and Arlington, and very large additional water and steam mills, for sawing the blocks, are in process of erection by companies of capitalists from Boston and Philadelphia. Frem this business alone the Western Vermont Railroad will soon derive an income which will render the bondholders perfectly secure.

HyGlastika.—A spredy and certain cure for neuralgia, tic doloroux, toothache, nervous head ache, and rheumatism in the head, and a sure preventive of convulsions, or any other complaints attendant upos early childhood during the period of teething, has been discovered and is now being successfully administered in the form of a medicated necklace, to be worn next the skin by the patient. An eminent German physician discovered the virtues of the valuable medicines of which the beads of the necklace are made, and prescribed the mode of application. The notice of the public is not, therefore, called to a quack medicine, but to a medicament recommended by one of the most eminent of this faculty, as peculiarly powerful in acting through the pores of the skin directly upon the diseased or excited nerves, affording, generally, instant, and always permanent trelief, and effecting a permanent cure. Patients who, at twenty-four hours trial of the medicated necklace, according to prescription, find no relief, may, at the close of that period, by immediately returning the same, receive back their money.

TESTIMONY.—I do hereby certify that the composition of the medicated necklace, offered by Schuffner & Muldener, is of such a nature as to unfailingly produce the most satisfactory results.

At this time, (now about two months,) I heard your book highly spoken of, es containing some matters reaching my case. On its recaipt and perusal, I cannot express to you the relief is afforded my distressed unind, and the joy its page imparted to my wife, on learning that the great discovery of M. M.
